

Sit-in Garden THE PLAN

ELEVATED EMBRACE & INTIMATE ENCOUNTERS

In an elevated realm of space, there lies a garden unlike any other. It is not bound to the earth but floats gently above, like a serene sanctuary suspended in the air. The space is crafted with curving planters, forming lines as artful as the natural flow of rivers, and as intriguing as the simple geometry.

Scattered throughout this elevated oasis are stools and tables, each an open invitation to sit, reflect, and connect. Every position within this garden offers a unique perspective, a new way to experience nature's play, and a personal nook for every visitor. It is a garden that moves with you, a piece of natural art that can be repositioned and recreated elsewhere, reflecting the ever-changing landscape of life.

Sit-in Garden is a cosmo where nature and human comfort intertwine. Here, every seat, every viewpoint, is an opportunity for discovery, a moment to be cradled in nature's arms. It is a place to sit within the bloom, amidst the fusion of flora and sky, where the boundary between human and nature blurs into a harmonious coexistence.

Garden #1: Needlegrass / Feather Reed Grass / Ponytail

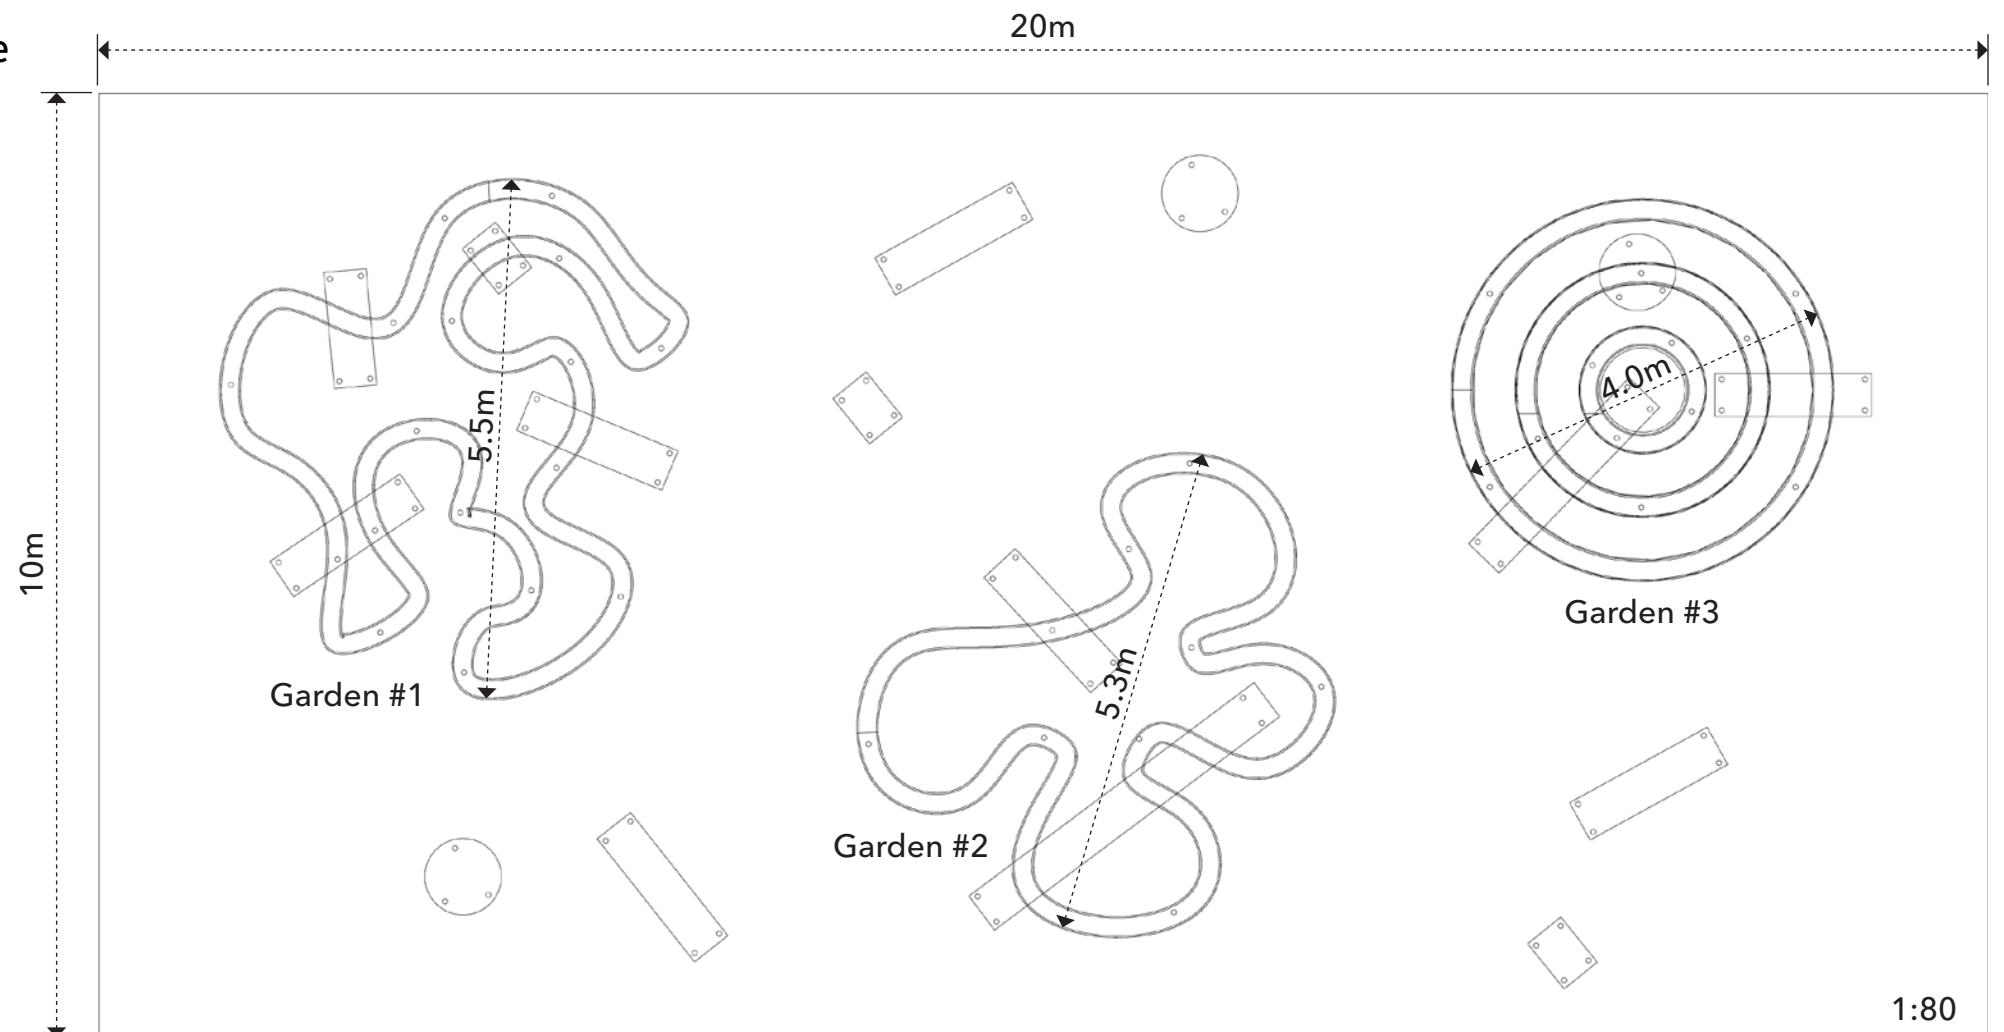

Garden #2: Rosemary Plant / Willowherb / Curry Plant

Garden #3: California Flower / Garlic Plant / Chinese Violet
