Project description.

The Wave - Coastal Garden

The coastal garden style is an exquisite pathway. The plumes and seed heads and refreshing approach to landscape create an eye-catching contrast with the foliage, adding texture and dimenthat captures the essence of the seaside. The design philosophy embodies sion. Hues of blue, white and gray green the spirit of coastal living, creating an dominate the scene, evoking the serenity of the ocean. Pops of vibrant color atmosphere of tranquility, beauty and like turquoise sparingly mimic the sea connection to nature. Key aspects of design includes its soothing color pallife. Materials used in garden for creating pathway and shade are of natural ette, the use of summer flowering perennials and ornamental grasses with origin like wood and stone. These materials blend seamlessly with the landemphasis on blending in with natural scape, enhancing the overall sense of landscape. The perennial border is one of the most exciting aspects of any gar- harmony and connection to nature. den, especially when creating a crescendo of colors and shapes for the summer season. The plant combination is versatile, hardy and spectacular, bringing movement, texture and drama. Woven around the wave shaped
