

THE BRIDGE OF INFINITE LOVE

The idea for this project comes from my vision of the world without borders, without walls, but instead an infinite bridge that can unite us, can reach people all over the world and bring us a little closer. In the middle of the bridge there are two creatures that embrace each other and symbolize Infinite Love.

People and especially children can enjoy both walking and passing under the bridge

“We build too many walls and not enough bridges”

Isaac Newton

suggested plant :
real grass lawn turf
